PLEASE READ OUR TERMS AND CONDITIONS

If a part that you need is not on this list, please call – we may have it, as we are always forgetting to add items. We try to keep adding new parts.

We keep an unfortunately diminishing stock of rare and obsolete parts, and also good used items.

N.B This list is intended only as a guide : all prices are current, but subject to change without notice. If there is an increase on the stated catalogue price we will try to inform you at the time of ordering, but please ask for confirmation of cost.

Price increases are not always due to our desire to be very rich, but are more often due to unavoidable rises in manufacturing and transport costs.

For your convenience we have given prices without VAT (first column) and with VAT @ 20% (second column). VAT is not applicable outside the EU.

N.B. Until Great Britain leaves the EU VAT-registered customers within the EU will be required to state their registration number.

We despatch parts by Royal Mail and FedEx Next Day.
Most parcels will require a signature as proof of receipt.
Overseas parcels are usually sent by Royal Mail, Parcelforce , TNT, UPS or other reputable carriers.

If you are overseas we will require a telephone number and e-mail address as well as the full postal address- most important.

We like to despatch parts as soon as possible after ordering, ideally on the same day. But as there are so few of us (i.e. just one!) there may be delays. If you are kept waiting we do apologise in advance.

On the very rare occasion that a part proves to be faulty we will either replace or refund without question, providing we are notified within 7 days of your receipt of the part and the unsatisfactory part is returned. If you return a part for any other reason we reserve the right to exert a 20% handling charge, provided the part is received back in the same condition in which it was sent.

***** Personal callers are very welcome, but please telephone first, in case of disappointment if we are not here, especially if you are coming from a distance.***

We accept payment by cash (sterling, US\$ or euro) and major debit and credit cards. (not American Express) We welcome payment by bank transfer.

We can no longer accept payment by cheque.

Open: Weekdays Monday to Thursday 8.30 a.m. to 4.30 p.m.

Some Saturdays: 8.30 a.m. to 12 noon

Closed: Friday and Sunday

ALTHOUGH WE TRY TO ANSWER THE TELEPHONE IF POSSIBLE

*** THE MOST RELIABLE WAY TO GET IN CONTACT IS BY E-MAIL ***

Please note we rarely answer withheld telephone numbers

**** Sometimes we are unavoidably away for short periods during stated opening hours or are here, but unable to take calls; so if you do not get an answer either try again later or e-mail us on lotuslist@yahoo.co.uk.***

HISTORY

For four decades Mick Miller had a love affair with the Lotus Elan. It started with his building of new kits in the 1960's, continued with repairs and servicing and gradually evolved into restoration, only ending with his early death in 2003. By this time he was acknowledged across the world as a leading expert of the marque, accompanied by a legendary reputation for attention to detail.

Although the restoration workshop closed when Mick died, the spare parts side of the business continues to flourish, supplying both individual car owners and other restoration firms. We are also still able to answer restoration queries and offer advice.

We try to keep in stock all service items for the Elan and Elan Plus Two, along with many trim and body parts. In keeping with Mick's philosophy, we aim to ensure that the quality is as high as possible.

Forty-six years after the cessation of Elan production, there are few original equipment items still available from the Lotus Factory, but if they are obtainable, we try to stock them. Other parts are sourced from alternative suppliers and many are specially made for us. We are constantly trying to source and remanufacture previously unobtainable parts.

SUPERFLEX BUSHES

These Superflex polyurethane bushes are much longer lasting than the current rubber bushes. They are intended for road, not track, use and therefore do not produce a significantly harder ride.

All Elans should have teak straight-grain dashboards. Burr walnut is for the less-discerning. But if you want it you may have it. Made to order, same prices as above. All dashboards come complete with white lettering applied where appropriate. Please note that we much prefer our customers to collect their dashboards. This is for two reasons; firstly trees grow differently and no two grains are exactly the same- all the dashes are handsome but you may like one grain pattern more than another; secondly because of the risk of damage in transit. If collection is impossible the inland packing and carriage charge will be £25.00 + VAT.

DROP-HEAD CONVERSION

It is not a difficult job to convert a fixed-head coupe into a drop-head, but it is time-consuming and quite expensive. Purists may disapprove, but other may consider it no worse than fitting a non-original chassis or replacing a 4-speed gearbox with 5-speed transmission. As the Elan was designed as a drop-head no strength is lost from the body by cutting off the roof, although the windscreen pillars must be reinforced in order to maintain the correct rake of the windscreen and to support the screen and hood properly. If you sell the car you are honour-bound to tell the buyer it is a conversion, even if it is obvious from the chassis number. The original DHC S3 to Sprint) is Type 45, the FHC is Type 36.

The following is a list of the parts needed for a drop-head conversion.

1 Windscreen frame GRP section	50.00	60.00
1 Rear panel GRP section	50.00	60.00
1 Vinyl strip and foam padding (top windscreen frame)	6.00	7.20

2 Hood tray grommets rear strut access) @ 7.50	15.00	18.00
1 Hood tray finishing trim	6.50	7.80
1 Hood frame	295.00	354.00
2 hood frame bobbins @ 4.50	9.00	10.80
11 twinscrews @ 1.35	14.85	7.82
1 Hood-retaining metal strip	24.00	28.80
2 Drip rails @ 28.00	56.00	67.20
1 Hood, everflex	285.00	342.00
1 Hood envelope, everflex	135.00	162.00
1 Tonneau cover, everflex (optional)	198.00	237.60
23 Tenax studs @ 1.30	29.90	35.88
17 Tenax buttons for hood @ 1.50	25.50	30.60
17 Tenax buttons for hood envelope	25.50	30.60
23 Tenax buttons for tonneau cover (optional)	34.50	41.40
2 Hood snaps @ .40p	.80	.96
1 Hood stowage sheet	4.00	4.80

1 Door seal	30.00	36.00
2 Door seal end-cappings @ 15.50	31.00	37.20

FANCY NEW-FANGLED PARTS

We tend to be of the Luddite persuasion and hate change for its own sake; we do like to see the Elans kept more or less as they left the factory. But even we have to admit that sometimes an innovation comes along which is worth considering.

Here are a few of such items:

- High -torque starter motor, Luke Motorsport- vast improvement for starting, especially for high compression.
- Electronic ignition system, Aldon Ignitor- hidden inside the distributor, thus keeping the look of originality.
- High quality rotor arm- great improvement on the current standard Lucas rotor arm
- Braided steel Goodridge clutch hose- this goes from master to slave cylinders, replacing both the rubber and rigid OE pipes.
- Braided steel brake hoses- these have zinc-plated steel fittings, but we can also supply them with

stainless steel fittings at extra cost.

- Braided steel oil pressure gauge pipe, also Goodridge.
- Superflex polyurethane bushes- these are much more durable than the OE rubber, without drastically altering the handling.
- Halogen headlamp units- these fit into the existing headlamp bowls and can be supplied with standard or up-rated xenon bulbs. We are informed that no changes are needed to existing wiring. Old-style sealed-beam units are now obsolete.
- Up-rated cooling fans- we normally supply a neat Revotec model, which is very efficient.
- C.V. joint driveshaft conversion is still available- eliminates doughnut worries. (must be fitted with restricted rear shock absorber)
- Electric headlamp-raising conversion. Not for the purists but it works!

ODDS & ENDS

Boot jack bag, black vinyl	12.00	14.40

And shameless marketing products:

Shopping bag, black jute, embroidered with our logo	3.50	4.20
Cotton bag with our logo, black, embroidered with our logo	3.50	4.20
Bib apron, black cotton, embroidered with our logo -Ideal for kitchen or barbecue	9.00	10.80

A final note----- we are always eager to help but use a bit of psychology. Please do not call and ask for a very rare part saying "we have tried everywhere else". We will answer gracefully, but secretly we will be offended, especially if you have bought all the big, expensive but easy, parts elsewhere. We are happy to give endless time free to help with enquiries, but we, and the cats, do have to eat as well!

So- if your really have tried everyone else first-DON'T TELL US !

Similarly, don't say that Joe Bloggs Lotus can beat our prices – if they can, then just buy it from them, but DON'T TELL US because we decline to be warriors in a price war! And like is not always compared to like. Ours might just be better.
